Humphrey Yogart, the decades old frozen yogurt favorite in the Valley, may have relocated from its original storefront, but its signature frozen yogurt, ice cream, shakes, and smoothies remain the same. The shop made a name for itself with its hard-packed, non-fat yogurt that's blended with toppings to achieve the whipped, airy texture of soft-serve. There are over 45 add-ons to mix with your yogurt (we mean, yogart), including fruits, nuts, candies, and cookies. It might not be self-serve, but the swirled creations are in a class of their own.
